

3C product applications

3C & Home Product Applications

Optics Protection Film

Optics Hard Coating Film

• Characteristics and advantages

1. Nan-Ya optics protection film have the characteristic like high transmission, Low adhesion, no adhesive residue excellent air exhausted and easy to process, can used in film panel protection, and plastic parts of cell phone, digital camera, NB and TV surface protection.etc.
2. Optics hard coating film have the characteristic like high gloss and low haze, low rainbow grain and good appearance, excellent anti-scratch and protection protection effect.

• Certificate

ISO-9001, ISO-14001, RoHS REACH

• Supply Performance

Provides famous touch panel plants and laminated plants

• Contact Us

Jackei Hwang Tel:02-27178212 E-mail : Hwang5830@npc.com.tw

3C & Home Product Applications

• Applications By Type:

PET Optics Protection Film

TP processing or Shipping Protection

Explosion Proof Film

Use in Cell Phone

Use in Cell Phone

Use in Tablet PC

• Applications By Type:

PET Optics Protection Film

Use in Tablet PC

Use in Operation Monitor

Use in Operation Monitor

• Applications By Type:

Optics Hard Coating Film

Hard Coat Film for ITO/Touch Lens.

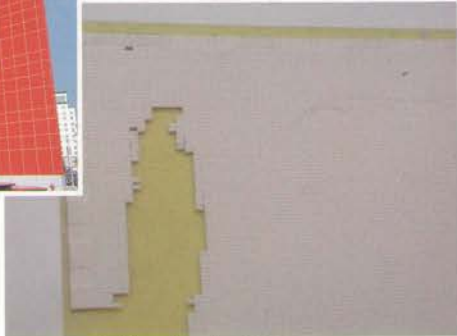

Hard Coat Film for ITO/Touch Lens.

• Applications By Type:

Other Optics Film

Window IR Cut Film

Heat Peelable Film for MLCC

3C & Home Product Applications

Metallic and Hair-line PET, PVC Film

• Characteristics and advantages

1. Nan-Ya metallic film and hair-line decoration film for lamination with plastic, stainless and architectural materials.
2. Metallic decoration film for home electric appliances, furnitures, car interior or exterior and various sundries.

• Certificate

ISO-9001, ISO-14001, RoHS REACH

• Supply Performance

laminated plants and 3D vacuum forming plants

• Contact Us

Wu Wen-Dong Tel : 02-27122211#5789 E-mail : wjungwu@npc.com.tw

3C & Home Product Applications

• Applications By Type:

Home appliances

Refrigerator decoration

Furnitures laminated

Washing machine laminated

Plastic laminated

LED TV decoration

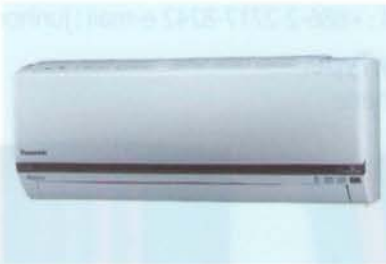

Suitcase Forming

• Applications By Type:

Metallic Film

Suitcase Forming

Air conditioner decoration

3C Product Applications

Dry/Wet PU Synthetic PU Foil

• Characteristics and advantages

1. 5 years hydrolysis durability. Pass jungle test at 70°Cx 95% RH x over 5 weeks.
2. Good flexing property. Pass flex test 300,000 cycles at 25°C and 30,000 cycles at -10°C.
3. Light weight than leather 32% and PVC 40%.
4. Soft and good touch like genuine leather.
5. Good stretch ability. Suitable for decorating on 3D curve surface.
6. Meet RoHS and REACH request.

• Certificate

ISO-9001, ISO-14001, OHSAS-18001

• Supply Performance

LENOVO, HTC, LOGITECH

• Contact Us

Junhong Chen, Tel : +886-2-2717-8242 e-mail : junhong.chen@npc.com.tw

• Applications By Type:

• Dry/Wet PU Synthetic

Case for Cell Phone

Case for Tablet PC

Cover for Keyboard

• PU Foil

Case for Notebook
