

Raw Material applications

Synthetic Raw Material Applications

PVC Color Granule

• Characteristics and advantages

1. Excellent in color dispersion, easy coloring, stable quality, easy dosing, easy color matching, no pollution, no dusting and available for long term storage.
2. PVC Color Chip, after adding organic solvent, it becomes print ink with good clarity and high bright specialties.

• Certificate

ISO-9001, ISO-14001

• Supply Performance

Nan Ya CO.

Tel : 886-2-2717-8188~89, E-mail : yaoti@npc.com.tw

Synthetic Raw Material Applications

PET, NYLON Master Batch

- **Characteristics and advantages**
Master Batch using newest special procession, which can easily for Polyester and Nylon fiber spinning , to reduce the cost and high productivity as well as longevity of spinneret
- **Certificate**
ISO-9001, ISO-14001
- **Supply Performance**
Nan Ya Plastic CO.
Formosa Chemical & Fiber CO.
- **Contact Us**
Tel : 886-2-2717-8188~89, E-mail : yaoti@npc.com.tw

Synthetic Raw Material Applications

One-component and Two-component PU resin for dry process synthetic

- **Characteristics and advantages**

1. PU resin have excellent UV- resist property, also easy to use in post processing.
2. Good solvent resistant, Excellent flexibility.
3. Hydrolysis durability. Pass jungle test at 70°C x 95%RH x over 2 weeks. No crack after test.

- **Certificate**

ISO-9001, ISO-14001

- **Supply Performance**

Tahsin, Cathay

- **Contact Us**

Tom Kuo Tel : +886-2-2717-6227, E-mail : tomkuo@npc.com.tw

Synthetic Raw Material Applications

One-component pu resin for wet process synthetic

DMF Purifying

• Characteristics and advantages

1. Good film property, Regular cell-structure, Flat and nonstick surface.
2. Fine resilience, Good film thickness, High coagulation speed.
3. High purity DMF is for recycle use to save cost.

• Certificate

ISO-9001, ISO-14001

• Supply Performance

Shuang Bang

• Contact Us

Tom Kuo Tel : +886-2-2717-6227, E-mail : tomkuo@npc.com.tw

Synthetic Raw Material Applications

TPU Pellet

- **Characteristics and advantages**

1. Soft & Good Elastic and restore character.
2. hydrolysis resistance, Low temp flexibility, Good abrasion resistance.
3. Easy to process and emboss figure clear.
4. Suit for H/F and ultrasonic process.

- **Certificate**

ISO-9001, ISO-14001

- **Supply Performance**

TSRC corporation, Cathay

- **Contact Us**

Synthetic Raw Material Applications

- Applications By Type:

PU resin Finishing agent

PU Adhesive

Surface Finishing

- Applications By Type:

Finishing agent Wet film

Wet film

Spray Lacquer

- Applications By Type:

Athletic installation materials

Athletic installaiton

Tennis court installation

• Applications By Type:
Seamless flooring materials

Classroom flooring

Sport flooring

• Applications By Type:
Waterproof Material

Roof waterproof

Roof waterproof

• Applications By Type:
Sealant materials

Filling joints of airstrip

Filing joints of bridge

• Applications By Type:

TPU pellet

Glue for Outdoor Tent

Waterproof Bags

• Applications By Type:

TPU pellet

TPU Sheet

Mattress

• Applications By Type:

TPU pellet

PU Elastomer

TPU Pipe
