PVC Sheeting for Label

• Characteristics and advantages

1. The super high gloss PVC sheeting for label is made adapting the patent process acquired by us. The gloss level attains 85 min (Tested by 20 degree angle) and can be controlled with in 10 between inside and outside of roll.
2. The super high gloss PVC sheeting for ink jet printing has a very good printability, it is applicable for mounting board, and all sorts of decoration of car, wall, show window, exhibition, indication, and advertisement. It is also a very good product showing excellent in identification, publicity, and beautiful to look.

• Certificate

ISO-9001, ISO-14001

• Supply Performance

MCSIGN Coating Technology Inc. AVERY DENNISON CO. 3M, ARLON

Livelihood- For Label Applications

• Applications By Type: For Signboard

• Applications By Type: For Car

• Applications By Type: For MRT

Livelihood- For Tape Applications

Electric Tape

- **Characteristics and advantages**

1. Good in insulation resistance.
2. High flexibility, acid and alkaline resistance, corrosion resistance.
3. In conformity to the environmental protection requested by customers, meet RoHS, REACH STD.
4. High (low) temperature resistance (to meet JIS and UL std).
5. Flame resistance, weather resistance and waterproof.

- **Certificate**

ISO-9001, ISO-14001

- **Supply Performance**

Achem Technology Co. Avatack Co. Nitto Co.
Globe Industries Co. Denka Co.

- **Contact Us**

Telly Hsiao Tel : 886-2-2717-8188~89, yaoti@npc.com.tw

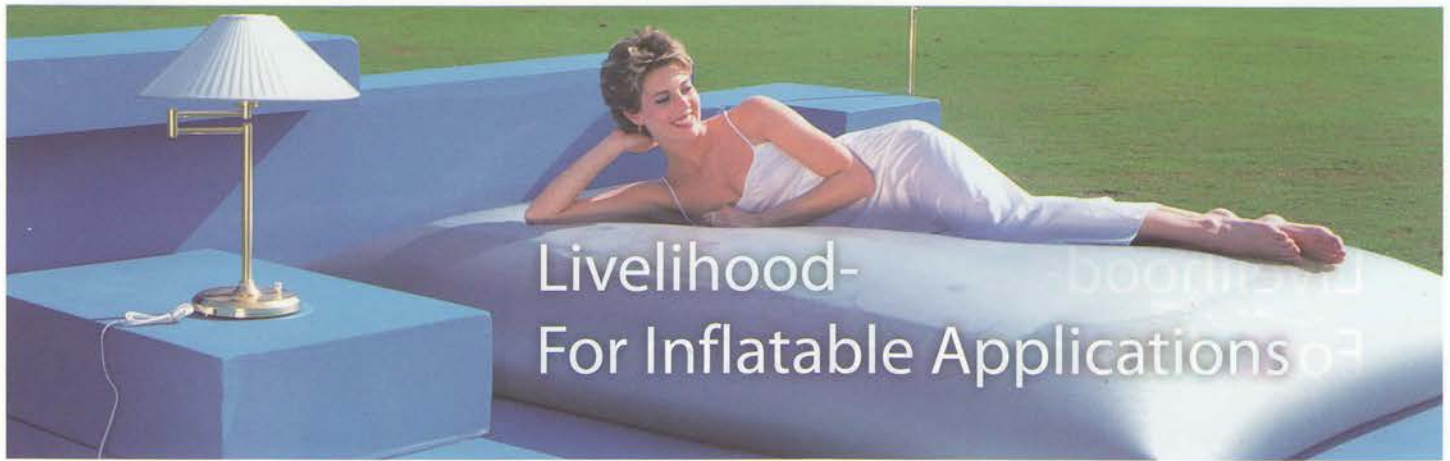

Livelihood- For Tape Applications

- Applications By Type:
PVC Electric Tape

- Applications By Type:
PVC Protect & Car Tape

Livelihood- For Inflatable Applications

For inflatable (water bed)

• Characteristics and advantages

1. Meet the needs of environmental protection such as low toxicity of heavy metal, non-phthalate, low VOC, low PHENOL, as well as REACH, RoHS etc. for the related Safety standards.
2. Material with high temperature resistance, high strength/toughness, and low temperature resistance for different applications.

• Certificate

ISO-9001, ISO-14001

• Supply Performance

Bulton Enterprises Co., Ltd.
Kuohomil, Accumulated Blessing International Corp.

• Contact Us

Telly Hsiao Tel : 886-2-2717-8188~89, yaoti@npc.com.tw

Livelihood- For Inflatable Applications

• Applications By Type:

Inflatable PVC Sheet

Obstacles game

Bouncer

Inflatable boat

Inflatable pool

• Applications By Type:

Water Bed PVC Sheet

Water Bed

Livelihood-For anti-dust & anti-insect applications

Anti-static PVC Sheeting for Dustproof Mosquito and Preve

• Characteristics and advantages

1. It possesses long-lasting anti-static formulation which is able to go together with electric conduction network printing in order to advance anti-static and dustproof abilities.
2. The wavelength of visibility of mosquito and insect's compound eye is 300~550nm. It has to specify if formulation requires mosquito and insect prevention in coordination with translucent yellow color.

• Certificate

ISO-9001, ISO-14001

• Supply Performance

Wen Jiun Enterprise Co., Ltd.

• Contact Us

Telly Hsiao Tel : 886-2-2717-8188~89, yaoti@npc.com.tw

Livelihood-For anti-dust & anti-insect applications

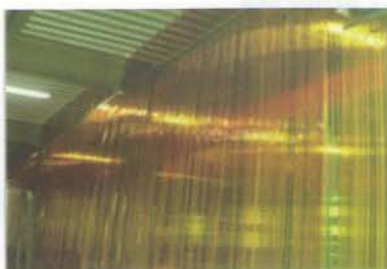

• Applications By Type:

For Dustproof and Anti-static Prevention

• Applications By Type:

For Mosquito and Prevention

Super Double Polished PVC Film

• Characteristics and advantages

1. By using our patent know-how to manufacture the product that carries the characteristics of no flow mark, even surface and high gloss(G.V. 100 ↑).
2. In conformity to the environmental protection requested, the product with low VOC quality is available, non-phthalate(meet RoHS and REACH STD).

• Certificate

ISO-9001, ISO-14001

• Supply Performance

Portofino, Expafol, Robysa, Yong Yu Co., Ltd. Giant Plasley.

• Contact Us

• Applications By Type:
Tent & Canopy

Livelihood- For screen applications

High flexible PVC Sheeting For Projection Screen

• Characteristics and advantages

1. PVC High flexible sheeting suitable for front projection and rear projection screen uses.
2. Producing 120" wide (3.048 meter width) with even color a lay-flat as the best of project effect screen condition.
3. Special requirement such as mildew resist, fire retardant, U.V. inhibitor, fragrance are available.
4. Special packaging by wooden crate for suspension the film in roll to avoid any mark on the face.

• Certificate

ISO-9001, ISO-14001

• Supply Performance

Eastwell International, Wuhu Rising International, Joe Ec Industrial

Livelihood-For others

Rigid PVC film

Vacuum Forming

Color Film

• Characteristics and advantages

1. Excellent formability, impact resistance and good chemical resistance .
2. High gloss, high transparency, excellent impact resistance.
3. Good lamination ability, both layflat quality and abrasion resistance are excellent , good printability, formability.
4. Excellent vacuum metallized,prossing an appearance of metallic luster.
5. We can product above Characteristics of film and supply applications in forming, stationery, lamination, printing, decoration of excellent film promptly.

• Certificate

Card Holders

Livelihood- For Sport applications

Dry/Wet PU Synthetic

Wet PU Synthetic

- **Characteristics and advantages**

1. 5 years hydrolysis durability. Pass jungle test at 70°C x 95%RH x over 5 weeks. No crack after test.
2. Excellent moisture absorption, non-slip and high abrasion function.
3. Soft hand feel like genuine leather.
4. Meet REACH , RoHS test request.

- **Certificate**

ISO-9001, ISO-14001

- **Supply Performance**

LULULEMON, NIKE, MOLTEN

Hydrolysis Durability Type

QUV & Weather Resistance

• Characteristics and advantages

1. 10 years hydrolysis durability. Pass jungle test at 70°C x 95%RH x over 10 weeks.
2. Good flexing property. Pass flex test 300,000 cycles at 25°C and 30,000 cycles at -10°C.
3. 32% light weight than leather, and 40% than PVC.
4. Soft and good touch like genuine leather.
5. Smell like genuine leather.
6. Meet ELV, VOC, PAHs, REACH request.

• Certificate

ISO-9001, TS-16949, 3C, ISO-14001, OHSAS-18001

• Supply Performance

Dry PU Synthetic

Dry/Wet PU Synthetic

- **Characteristics and advantages**

1. 5 years hydrolysis durability. Pass jungle test at 70°C x 95%RH x over 5 weeks.
2. Waterproof and windproof function.
3. Light weight, different backer available.
4. Variety color and emboss available.
5. Could request flam-retardant, stain resist and mold proof.
6. Meet RoHS, REACH request.

- **Certificate**

ISO-9001, ISO-14001, OHSAS-18001

- **Supply Performance**

Nike, adidas, PUMA, NB, VF, Mizuno, Walmart, Shimano

Lining Usage Non-Woven Fabric

Grip Area Usage Non-Woven Fabric

Skid-Resist Function Non-Woven Fabric

• Characteristics and advantages

1. With high ventilation property, flexibility and easy post processing features.
2. lining usage non-woven fabric has good abrasion function. It is proper for use in shoe and handbag.

3. Grip area usage non-woven fabric has good stretchable function. It is proper for use in grip area of racket.

4. Skid-resist function non-woven fabric has non-slip function. It is proper for use in combination with injection shoe sole.

• Certificate
